Celebrating six years of operation, the Puerto Rico Convention Center creates a singular destination for conventions, trade shows, consumer shows and congresses, and places Puerto Rico at the forefront of meeting and exhibition destinations. With its signature wave-like roof line and a 13-story glass curtain offering spectacular views of the San Juan harbor and area beaches, this magnificent and welcoming facility is not only the newest convention center in the Caribbean, but the most technologically advanced facility in the Caribbean and Latin America.

The Puerto Rico Convention Center incorporates the quality and standards expected from a full-service world-class convention facility. Its size compares favorably with the largest facilities in the hemisphere. There are almost 580,000 square feet/53,882 square meters of overall gross space, including 152,700 square feet/14,186 square meters of exhibition space; 39,000 square feet/3,670 square meters of ballroom, the largest in the Caribbean; an additional 36,200 square feet/3,363 square meters of meeting rooms; and some 200,000 square feet/18,580 square meters of pre-function areas and support space. Two-phase expansions are planned for the Convention Center, enabling an increase of up to 450,000 gross square feet/41,805 square meters of contiguous exhibition halls, with a total of 180,000 square feet/16,722 square meters of meeting and ballroom space.

Cutting-edge technology at the Center includes video-conferencing, simultaneous language translation, full fiber optic broadband and wireless Internet access. Controllable lighting, electrical and utility connections are readily accessible through state-of-the-art floor boxes in the Exhibition Hall; a production control balcony with sound and lighting controls in the Ballroom, as well as an integrated audio system with the capability for remote recording of programs and programmable lighting controls in the Ballroom and meeting rooms make the Center the most technologically-advanced meeting place in the Caribbean and Latin America. In addition,

the Center offers an array of on-site services, including an award-winning food and beverage team, a full-service business center, dedicated event staff, on-site production rigging and sound and light staff, as well as closed-circuit television and security systems to monitor all installations.

The Puerto Rico Convention Center is the core component of the 113-acre "lifestyle" urban development project strategically located between the Condado hotel district and the historic city of Old San Juan known as the Puerto Rico Convention Center District.

Considered one of the largest and most ambitious waterfront development projects in the history of the U.S. and its territories, it was conceived as a vibrant urban gathering place. Once complete, visitors to the District will experience the distinctiveness of Puerto Rico in what will become one of the Island's most sought-after spots for business, shopping and recreation. Elements of the District include hotels, restaurants, movie theaters and other entertainment venues.

The latest development within the District was the recent opening of the Sheraton Puerto Rico Convention Center Hotel. Serving as the headquarter hotel to the Puerto Rico Convention Center, the Starwood property is the first building ever built in the Caribbean under the guidelines of the U.S Green Building Council. The property features 35,000 square feet of state-of-the-art flexible meeting space in a conference center setting, including a 16,300-square-foot ballroom, divisible into eight rooms; and a smaller, 7,700-square-foot ballroom distinctively remarked by the natural lighting and views plus seven other meeting rooms, some that can be divided. Additional hotels that will begin construction this year include a 300-room Marriott Courtyard Convention District Hotel and another Starwood property, the 252-room Aloft Puerto Rico Convention Center Hotel.

The Puerto Rico Convention Center is located just 13 minutes from the Luis Muñoz Marín International Airport, Condado tourist area and Old San Juan.

THE MOST IMPRESSIVE PART OF THIS BUILDING ISN'T THE BUILDING.

Smooth service

It's the people. Professionals who know how to get things done. They'll show you how to take advantage of the top-shelf technology, accessibility, affordability and charm of the Puerto Rico

Convention Center so that your event goes smoothly. The building is extraordinary.

The people? Even better. Call 787-725-2110 or 800-214-0420.
